### WHAT'S UP, HOMIES?

I'm sure all of you are excited for the upcoming Christmas break. No need to wipe that perma-smile off your face, because you can say goodbye to homework and say hello to presents, nom feasts, and fun times with the fam bam...for now, at least! I personally enjoy the month of December because I get to see my crazy cuzins (and my equally crazy mom and sibs), act like I've got no chill with my rowdy buds (they're quite a handful, trust), and down all the hot chocolate I want in semi-chilly weather (Time to bust out all those nerdy sweaters!). You, however, rad-tastic KZer, have another reason to be on Santa's nice list: K-Zone's super-amazing-it-mos-def-belongs-inside-your-Christmas-stocking TOY SPESH!!!

So, what's in store for ya:

A sea of all the coolest toys to ever exist. Really, it's soooooo cool, you'll wanna swim in it!

2. Arlo, a good-natured dinosaur that has a hooman for a pet. Yup, you can count on Pixar to bring the weird.

3. More Star Wars geekery for you and dad to go bonkers over. #ForceFeels

 A new Pokémon game to button-mash the time away. Pikā-pika!

5. And a partridge in a pear tree. Just kidding. Lolz!

So spread the love this Christmas, Ii'l bros! Try to be extra nice and avoid being naughty (Well, no judgment if you decide to be a weeeeee bit naughty, Hee heel). Remember, 'tis the season to be awesome!

HAPPY HOLIDAYS,

## THE BB-8 BREAKDOWN

WENT OUT WEST WAS THE WAS THE STATE OF THE S

HOW DOES THIS DROID
GO ROUND AND ROUND?
PREPARE TO GET
YOUR MIND BLOWN!
#YEAHSCIENCE

# When BB-8 first rolled out on Hall H's stage during the Star Wars panel at this year's San Diego Comic-Con, jaws dropped to the floor; everybody was curious about how its mechanism worked. Some say the drold moves with the help of magnets, while others say there's some quantum physics involved (Quantum whut?). Some people even believe that BB-8 is powered by The Force!

#### THE BASICS

BB-8 can autonomously roll around and rotate its head around its body because of two things: magnets and a gyroscope. (Okay, and batteries.)

#### THE IS THE DROID YOU'RE LOOKING FOR!

Robot company Sphero made a BB-8 toy that can be controlled by using an app on your smartphone or tablet! Here's how this mini 'bot basically works:

**1. Gyroscope.** A gyroscope is a mechanism that has a rotating wheel mounted on an axis in order for the wheel to move around freely in all directions while still maintaining an upright position.

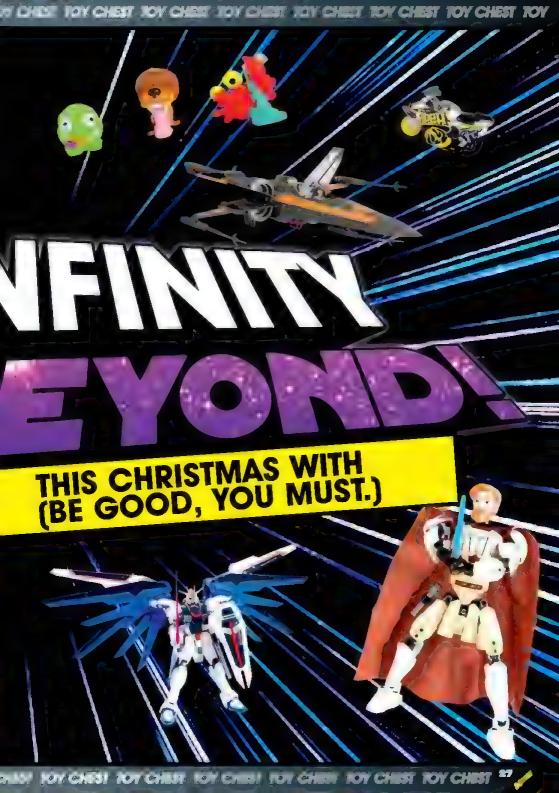

2. Ontaiwheels. Inside the BB-8 toy's thick plastic case are two wheels that are connected to a gyroscope and the toy's central drive system, which can be controlled via remote control. Still don't get it? Picture a hamster running inside a toy wheel. The hamster acts like the running inside a toy wheel while the toy wheel is like BB-8's gyroscope with wheels while the toy wheel is like BB-8's plastic case. Once the hamster starts running, the toy wheel moves forward.

S. Welchit BB-8's base consists of the batteries and the copper coil plate used for charging the toy. They also act as a counterweight to keep the wheels in contact with the case and in an upright position as they start rolling.

A Magnets. The magnets are on top of the mast, which is located at the top center of the toy's mechanism. They keep BB-8's head attached to the body no matter what direction the sphere goes.

# SECRET SANTA

# THE THERRY THRIBUT

PAGE 48 Naughty kids, beware. DECEMBER 2016

n Secret Santa day,
Miss Santos called each one
of her students to give them
their presents. Jeremy's
eyes widened when the
teacher called his name and
held out a big, colorful box.

"Awesome!" He yelled.
As he went in front of the class to claim his present, he purposely kicked his classmate Ciara's leg.
"Outta the way, tub o' lard," he hissed.

Once he got his gift, he immediately opened the package. Suddenly, hundreds of cockroaches climbed out of the box and up his elbow. Jeremy yelped, pulling back his hand and vigorously shaking it to get rid of the nasty insects.

Who would give a box full of cockroaches? He thought of all the names of people that he had hurt, teased, and picked a fight with. No one would dare pull that nasty prank on me, right?

As the days went by, Jeremy received more disgusting gifts like a dead frog and a rotting, maggotinfested chicken leg.

One afternoon, Clara approached him. "Jeremy, I-I'm your Secret Santa," she stuttered. "But I didn't give all the gross stuff that you've been receiving, I swear!"

"You're such a loser!" Jeremy yelled at his

terrified classmate. "So that's how you want to get even, huh? Well, your gifts don't scare me!" He was about to grab Ciara but she quickly ran away.

Fuming, Jeremy walked back to their classroom. The lights were switched off and everybody had left. He headed to the cabinet near the teacher's desk, opened it, and saw a box with his name on it. Jeremy greedily reached out for it.

"Merry Christmas," a deep, gruff voice said.

Jeremy quickly turned around. A large silhouette was standing at the far end of the classroom, looking menacingly at him.

"If there's a Santa for goody-goodies, there's one for naughty kids, too." The voice suddenly sounded smooth, almost charming. "I'm the Secret Santa." The hulking figure suddenly walked closer toward Jeremy. Yellow, reptilian eyes peered out of its blackringed lids.

It had long fangs and a redstreaked beared. The monster was dressed in a faded Santa suit that had blood stains on the white fur lining of its collar and cutts. Two big, sharp horns stuck out of its pointy red hat.

"And unlike good of Santa, I don't drink milk and eat cookies. You know what I like to eat?"

Before Jeremy could run away, the Secret Santa suddenly swooped down on the boy as he screamed for help., but, alas, no one could hear him. ? **CHERIFER®**

For her bangs, sketch long V's on the right side of her face then draw her exposed left ear, neck, and choker. Time to draw her braids! Start drawing the left braid from the top to the tip by sketching a series of heart shapes forming a long, curved line. Add an arrowhead shape at the end of the braid. Repeat the process on her right braid's visible parts.

#### SIEP &

Start drawing the bikini top and belt with the bullets strapped around her upper torso. Now lightly sketch some cloud shapes on the right side of her midsection for her tattoos. To sketch the Gatling gun, draw the large disc at the foreground and add two rabbit-like ears on top of it. Next, draw the three barrels one at a time. Then draw the handle between the rabbit-like ears and the rest of the Gatling gun's body. Lastly, draw the trigger that Uinx is gripping with her right hand.
